I-INTRODUCTON

Nowadays ,telephony is an important market in market in the communication sector.
The telephone is a very important part of our lives it is a communication device designed to transmit information in time so the distance between men is shortened.its operation requires terrestrial or spatial information the telephone network .
The telephone allows anyone,wherever they are to unite their knowledge and stay in constant contact with the world. We making a call because it allows anyone ,anywhere to where to reach their relatives ,their acquatances and stay in touch with whole ward .It allows you to quickly alert a Person who can helpyou in case of danger .It could be a accident,lass,low ar abduction of Person.
When using the mobile phone ,which pose risk tothe helth of users .moreover ,the fact if telephoning monopolizes the attention of the user .its use whit or without the hands-free kit is a source accident indeed,the mobile telephone is prolibited in the hospital for reasons of sofety and precautions because it can ,by its waves distrurb the medical devices.
